John Ball in a Ballying Homer. WE have given elsewhere, in to day's Sun, an extract from an article in the London Times, upon the San Juan Island dispatch, and have rather complimented our London contemporary upon its moderation of tone. We regret to find, by the mails received since that extract was put in type, that the Times has become more belliwards this country. Undoubtedly, this change of tone has been inspired by Lord PALMERSTON whose relations with the conductors of the lead ing Rogitsh journal are well understood.

It is time, therefore, for the Government, the

Press, and the people of this country to make British Ministers understand clearly that, while we are willing to submit the matter in dispute to negotiation, we are not willing to be bullied out of our rights. If British Ministers choose to prevoke irritation in the public mind and prepipitate a contest with the United States, they can do so, and we shall not decline the challenge. With all her organized power for destructive warfare, we shall not tremble before her threats, nor fear the consequences of once more measuring our strength in battle against hers.

The Press of this country has treated this San Juan affair in a temperate and friendly manner. Our Government has evinced its anxiety to prevent an unnecessary collision by sending out Gen. Scorr, the highest military authority next to the President, to supercede Gen. HARNEY, and inform himself of all the facts. It has, in fact, dignified its action, and constituted as its immediate representative at the scene of strife. a citizen, soldier and patrlot, in whose judgment and discretion in the matter the whole country has confidence. We think the British Government and its organs might, judiciously, have awaited some official information of the intentions and disposition of our Government, before indulging in foolish bluster.

We despise their blustering, and assure them that the time is passed when they can intimidate us. We would deplore a war with England-indeed, war with any country is a calamity which every sensible man in the United States desires to avoid; but we cannot allow our pre-dispositions to live peaceably towards all other nations and Governments to be used to the prejudice of our nationa lrights. We yielded much to Ingland, for the sake of peace, in the Oregon Boundary dispute, and we have borne with her duplicity and intrigues in Central American matters, until our patience has ceased to be a virtue. If she prefers now to revive feelings that were dying out, upon her foolish rulers let the responsibility rest.

The Paris correspondent of the London Post, says that Austria was trying to contract a loan in Lon-don.

An official communication, in reference to Central Italy, was spoken of as having been forwarded by Sardinis to the Great Powers.

The London Times' Paris correspondent mays:

"The latest and most accredited report respecting Italy is, that the Grand Duke of Tuscany will regain his throne, not by foreible means, but by an appeal to universal suffrage, accompanied by the grant of a constitution and by a general amnesty; that the Dukes of Parons will have Modens, and that Parma will remain annexed to Piedmont. The warmest and most sanguine partisans have now given up hopes of being emancipated from Papal rule.

Another Paris correspondent says that the Duke of Modens is at the head of 10,000 troops, backed by 5,000 more, under the Grand Duke of Tuscany. Kulkermanters has collected some 10,000 men, of whom about one-third are Croate, and the remainder Swiss, and he is gone to Keima, it is said, to organize a plan of attack against Farms' army of Central Italy, now concentrated round Rimini, whilst the Archdukes would operate from the North: Piedmont is also eagerly preparing for the fray.

CHINA.

There is no later news, but the Paris Pays furnishes the following in regard to the movements of Mr. Wann, the American Minister:

The last news from Shanghai establishes beyond a doubt, the arrival of Mr. Wann, the American Envoy, at Pekin. This diplomatist ascended the Ki-Tcheou-Yun-Ho, one of the branches of the Petho, accompanied by all the members of his Legation.

Arrived at Ning Hi-Fou, the American corvette which had brought Mr. Wakn was retained in port. The members of the Legation, under the guidance of a mandarin, were placed in a buge box, about five metres long by three bread, which was closed everywhere but above, so as to prevent those it contained from seeing the country. This box, or travelling chamber, provided with all things necessary to the comfort of the traveller, was placed on a raft, and taken first up the river, and then up the Imperial Canal, as far as the gate of the capital. Here it was placed on a large truck drawn by oxen, and in this way the Minister of the United States and the members of his Legation entered the town of Pekin. They were perfectly well treated by the Chinese, but were not allowed to see anything. The truck was drawn into the courtyard of a large bouse, which was to be the residence of the American change, which was to be the residence of the American dispatch to Mr. Fisis, the American Consul at Shaogha', informing him of their safety.

The San Juan Affair. The London Times of Sept. 29th, devotes another leading article to the occupation of San Juan Island by American troops. It denounces General HARMET'S conduct as prompted by ambition, claims that the title of England to the Island is superior to

wrs, and, in conclusion, mays:
We have yielded more than we ought on many

American questions, simply because the public opinion of the country cannot be emissed in these patry disputes while the destinies of the world are being decided at our doors. But there has probably never yet been an instance of a spot in dispute between the two nations, which has been violently seized by one of them on the sole responsibility of an inferior officer. Such an act requires an explanation from the Government at Washington, and doubtless Mr. Bromanan will at once declare that General Hanner acted without his sauction, and that the position of matters has been in no way changed by this appeal to main force. Of the island itself we know nothing, nor can we believe that the possession of it is of much value to either party, though it is certainly worth more to us than it can be to the Americans. But the seture is obviously only the expression of a feeling which exists among the American authorities and settlers in those parts. They believe that audacity and assumption will prevail over justice and moderation, and that, England being too much bound up in the manufacture of America's staple abric, Englishmen will be afraid to avenge any indignity. To put an end to such motions is the bounden duty of a State like ours; and, though we should deprecate as strongly as any one may approach to an unfriendly attitude, we think it the duty of the British Government to support its rights, undeterred by the bravado of an ambitious officer.

The Liverpool Times says of this article:—
The Times censures the British Government for habitually yielding to every demand of the American Government, and expresses a hope that "we shall be true to ourselves and those hardy and trusty adventurers, who, under the supposed protection of the British flag, have spread themselves over the globe." This language is almost certain to produce language equally defiant on the part of our transatiantic consins, and is not calculated to lead to a very harmonious solution of the question. It will hardly be adopted by a responsible Minister like Lord Jons Russell, and is certainly calculated to weaken the hands of President Bucharan.

Last evening, the Republican Ward Associations held their primaries. Very little excitement was noticed outside of the 15th and 16th Wards, which, together with the 9th and 18th, compose the 6th Senatorial District. In the two wards above mentioned the excitement was great, from the fact that efforts were made by two candidates for Senatorial honors—the Hon. GEO. OPDYKE, of the 8th Ward, and SILAS B. Durcuzz, of the 9th Ward, and President of the Young Men's Republican Central Committee—to secure the delegations from each ward. The result of the primary in the 15th was the election of the OPDYKE delegation. In the 18th Ward the election is probably divided between them. The plaintiffs allege that they did certain work for the Company, in fitting up their ressels, amounting in value to \$1.000, for which they allege they brought suit against the Company as a Corporation, and after exhausting their remedy as against it, find themselves minus the sainfaction of their claims. They now instituted proceedings against the defendant, averring that he was a shareholder, and that as such he was in law liable on the claim. They say he owned ten shares of the stock at the time the work was done, that he still owns it, and has an interest in the Company of at least \$1.000, the extent of their claim, and he ought to pay.

The defendant denies the whole story, says that he still owns the share of the stock at the Company of at least \$1.000, the extent of their claim, and he ought to pay.

The defendant denies the whole story, says that he still owns years that he still the Company sueing him did not do the work alleged to have been done in the complaint.

On coming into Court, the man of the "white coat" was greeted with many curious glances. As the plaintiff was not ready, the case was postponed to Tuceday next.

Commen Pleas. Responsibilty of the Police Commission Peter Hefernan vs. The Police Commission Peter Hefernan vs. The Police Commissioners.— This was an action, brought in the Common Press, before Judge Hilton, by the plaintiff, to recover the value of jewelry, alleged to have been wrongfully taken from him by the agents of the defendants, (the patrolmen.) valued at \$500.

The goods are understood to have been taken, in October last, from a pawn office in Varick street, as having been stolen, and lodged with Mr. Warren, the Property Clerk of the department, and Mr. Warren testified that he had custody of them. The officer testified as to the circumstances of the sizure of the goods.

testified as to the circumstances of the sizure of the goods.

The Commissioners answered that they were not properly under defendants in the action, and allege that the goods were taken by an officer of the department, under certain rules for its government, for which they were not liable.

When the plaintiff's case was rested, the defendants moved for a non-suit, on these grounds. The Court held that the answer of the defendants, alleging that the goods were seized by their agens, under their rules, it precluded an application for non-suit, and sent the case to the jury—instructing them that if found that the goods were taken by a person in the employ of the defendants, and that he acted under their general rules or directions, the verdict must be for the plaintiff. Verdict for plaintiff, for \$300.

Mr. Onkley Hall, for the Board, asked the Court to set a day when it would hear a motion for a new trial, on the ground that the verdict was not in accordance with the evidence.
